

H370

Auto Feeding label cutter

Servo Motor More Accuracy and Fast

Automatic Continuous Feeding Small Workstation High Configuration Servo Motor

Product Function Overview

Camera Contour cutting
Simple and Atmospheric Fuselage

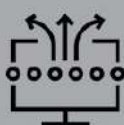

High Accuracy
Cutting Precision ± 0.01 mm

Delicate Exterior
Simple and Atmospheric Fuselage

Touch Screen Control
LCD Big Touch Screen Menu

Multi-Interfaces
USB cable/U-disk/WIFI

High Speed
Cutting Speed 700mm/s

Widely Applicable to Various Environments

Advertising industry

Graphic Packaging

DIY Craft

Fashion industry

Large Capacity

Stack up to 150 sheets (depending on the material)

150 sheets

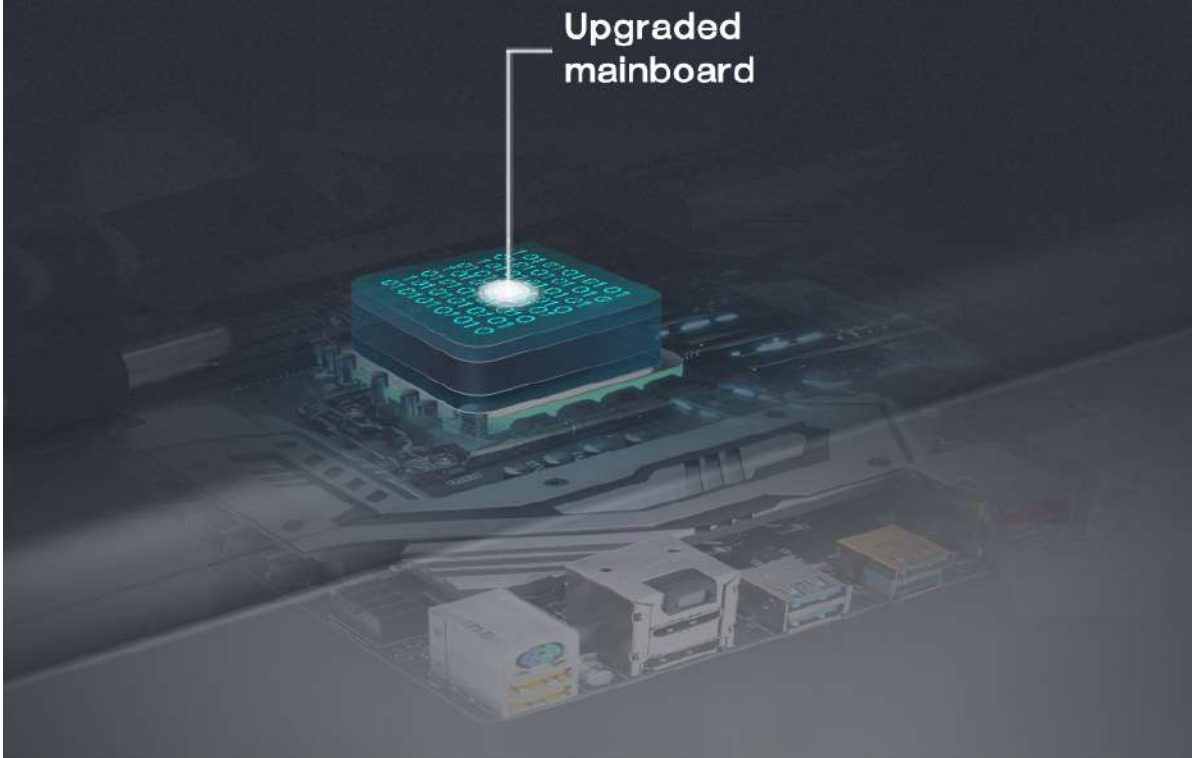

Auto Feeding System

Fully automatic tracking and positioning High Precision

Large Colorful Touch
Screen with More Concise UI

New constructure

Support Multiple Software Cutting

Adobe Illustrator

CorelDRAW plugin

Sure Cuts ALOT (Scal)

Product Specification

Product Model	H 370
MaxPatrol Cutting Width	330MM
Max Media Widthh	340MM
Max QTY of Auto Feeding	1 –1 50PCS
Cutting Precision	0.01 MM
Repeat Precision	0.082 MM
Max Cutting Speed	800MM/S
Max Force	2000G
Communication Mode	DISK/USB CABLE/WIFI
Power	<1 00W
Working Environment	+5°C–+35°C
Packing dimensions	790*600*420MM
Weight	40KG

ABOUT US

COMPANY PROFILE

Shenzhen Yitu Electromechanics Co., Limited specializes in researching and producing all kinds of cutting equipment, with 15 years of experience collection in smart cutting field, we become one of the biggest manufacturers for cutting equipment.

Factory covers an area of more than 8,000 square meters, has 5 production lines, more than 180 employees, including R&D teams with 30 workers, and more than 20 workers' after-sales service teams.

With the industry's top supply chain, this all escorts the excellent quality and stable operation of our products.
